'Queen Quality'

Need No Breaking-in!

Why should a woman be the slave of a pair of new boots? Think of the agony caused by the so-called breaking-in process.

"Queen Quality" and "Timber Comfort" Shoes are shaped in such a way that they fit every part of the foot finely, but, flexibly and when fitted as they are intended to be, invariably give ease to the foot the first day worn.

Try a pair and prove it—
